

DEMANDS OF THE VICTIMS OF THESE CRIMES

1.1

1. It is demanded that State and Federal employees and contractors cease the cover-ups, character assassination attacks and vendetta, reprisal, retribution actions against the victims. While it is appreciated that corrupt FBI agents Comey, McCabe, and other FBI agents that victims reported to, have been fired, the FBI still has not re-opened the cases. The GAO has frozen the files on their investigation. The SEC refuses to investigate because corrupt Senators have ordered them to stand down. Other agencies are frozen and unable, or unwilling, to help the victims. Americans cannot trust an Administration that runs cover-ups of organized crime and insider trading in order to protect corrupt government employees. Federal agencies must reach out to help the victims instead of attacking them in reprisal.
2. It is demanded that the promised whistle-blower and informant fees be paid to the victims by the agencies to whom the victims reported.
3. It is demanded that State and Federal agencies recognize our clients as “victims of a crime” and supply equitable attorney and legal resources.
4. It is demanded that the metric-proven damages from the cover-ups, character assassination attacks and vendetta, reprisal, retribution actions against the victims by State and Federal employees, be paid to the victims.
5. It is demanded that security and protective resources be provided to the victims in light of the on-going death and health threats and the previous deaths of the other victims.
